**Key words:** Composites, Modeling, Experimental validation, Industrial applications.

**Summary:** *This document provides information and instructions for preparing the full-length paper for the ICCST/10 Conference (2-4 September, 2015, Lisboa, Portugal).*

## 1 INTRODUCTION

The Conference publication will consist of a CD or pen drive containing papers of the contributions received and a printed Book of Abstracts containing the accepted abstracts. The authors should upload the full-length paper (min 4 pages and max 12 pages) to the online submission system, using the format of this template, by April 30, 2015.

The early registration deadline is May 15, 2015 and the conference fee payment deadline for presenting authors is May 31, 2015. Registration of presenting authors and conference fees paid by May 31, 2015 is mandatory for paper inclusion in the Proceedings and Conference Program. Papers unpaid after this date will be removed from the final program.

Further information can be found at the conference webpage:  
[www.dem.ist.utl.pt/iccst10](http://www.dem.ist.utl.pt/iccst10)

## 2 GENERAL SPECIFICATIONS

The full-length paper must be written in English and should have a maximum length of approximately 12 pages and minimum length of 4 pages.

## 3 TITLE, AUTHORS, AFFILIATION, KEY WORDS

The first page must contain the Title, Author(s), Affiliation(s), Key words and the Summary. The Introduction must begin immediately below, following the format of this template.

### 3.1 Title

The title should be written centered, in 14pt, boldface Times, all capital letters. It should be single spaced if the title is more than one line long.

### 3.2 Author

The author's name should include first name, middle initial and surname.

### 3.3 Key words

Please, write no more than six keywords.

## 4 FIGURES

All figures should be numbered consecutively and captioned, and should be embedded in the Paper.

Figure 1: Caption goes here.

## 6 EQUATIONS

A displayed equation is numbered, using Arabic numbers in parentheses. It should be centered, leaving a 6pt space above and below to separate it from the surrounding text.

The following example is a single line equation:

$$Ax = b \quad (1)$$

The next example is a multi-line equation:

$$\begin{aligned} Ax &= b \\ Ax &= b \end{aligned} \quad (2)$$

## 7 TABLES

All tables should be numbered consecutively and captioned.

|     |     |     |
|-----|-----|-----|
| C11 | C12 | C13 |
| C21 | C22 | C23 |
| C31 | C32 | C33 |
| C41 | C42 | C43 |
| C51 | C52 | C53 |

Table 1: Example of the construction of a table.

## 8 FORMAT OF REFERENCES

References should be quoted in the text by numbers [1, 2] and grouped together at the end of the Abstract in numerical order as shown in these instructions.

## **9 CONCLUSIONS**

We look forward to receive your contributions for this conference.
